

ABOUT THE SUMMIT

TURN YOUR INSTRUCTIONAL TECHNOLOGY UP! TurnIT Up Summit at Chatham High School is a one-day learning event designed for **Administrators, Classroom Teachers, Teaching Assistants, Coaches, and any educator** that is ready to explore learning beyond their comfort zone. The action packed day will be run similar to a conference; all learning levels are invited to attend. Our action packed Capture sessions (one-hour sessions) are for an overview of material, Immersive sessions (hands-on sessions) are designed for a deeper dive, and lastly hands-on playtime in our **PlayIT Playground** area will allow for exploration of new technologies. Start your day with an energized **Ramp UP Session** where all of our presenters give the audience a taste of what they will be teaching. Then move into our sessions with focuses on **everything Google, Expeditions, Robotics, Coding, and much more.** Keep fueled UP with our morning refreshments and afternoon lunch. **Water, coffee and lunch are included in the registration fee.**

- ***CAPTURE SESSION (60 minutes)**
Choose from many powerful **one-hour** sessions that go beyond the basics and push your learning further. All sessions are leveled and are designed to leave you energized as an educator. Connect with other like-minded educators to explore beyond your current knowledge.
- ****IMMERSIVE SESSION-Hands-ON (90minutes)**
Take a deeper dive into your learning. Immersive sessions are **90 minutes** which allows for more time to explore your passion and to have the hands-on opportunity you may be looking for. Our trainers will explore with you and showcase their expertise as you learn along side.
- **PlayIT Playground**
This is your time to PLAY! Learning is all about play time and here is your chance. Come explore some new technologies alone, with a friend, or join a group already playing. Visit the PlayIT Up Pods in the Vendor area.
